"THE PACIFIC MAIL"

William M. Crane is his own brand new self once more. He has said ta-ta to Shakespeare and has allowed the pretty little discussions as to whether "The Merry Wives of Windsor" should be staged amid fifteenth or seventeenth century surroundings to drop. He pro park appropriation, for instance, is divorce should be declared invalid, then duced at the glad and trembling, a "new commade perfectly plain to the commonest an appeal will be taken to the Supreme in fear and trembling, a "new commonest an appeal will be taken to the Supreme play" founded upon Tom Taylor duced at the Star Theatre last night play" founded upon Tom Taylor's "Overland Route" by Paul M. At first it was bravely announced that the play was brand-new-this to awaken interest Two days before production, however parties who have rushed off to South a quaint little hesitation was sighted It drew nearer. It became larger. I adapted from Tom Taylor's play."

Why so timid, Messrs. Crane and Potter? We all know that the old ideas re frequently better than the new ones. It is only the ascidulated spinster who leclares that she cannot sing the old songs. Mr. Potter is oppressed by no public man that we care to let go through such stilly sentiment. He can and does reduced.

He admits that the total of taxation little, but the only argument that preand the public debt have greatly in- vails with John L is a blow under the knowledge that "The Pacific Mail" was creased, but he charges this off against ear or on the point of the chin such as "The Overland Route"-cleaned and pressed, as it were. Tom Taylor's play forum, James J. Corbett, administered to had not been forgotten, and its revivals had generally been attended with suc

Mr. Potter has done some excellent "The Pacific Mail." made a capital part for Mr. Crane as away from his wife. The role is ter and Mr. Lovibond, and the mixture been left, too, and plenty of the incidents. The old bore who loses his false teeth on the coral reef is there; so are the horrible things that they have heard of each other; so is the tragic encoun ter between husband and wife, and there is also the ubiquitous detective.

The remodeller, however, has introduced new episodes, and very bright ones. The new dialogue is exceedingly satisfying, and I heard one excellen heatrical authority—a gentleman knows to a select few as "Abe" Hummel-a sert that Mr. Potter had positively improved upon "The Overland Route." Could praise go higher than this? The play has certainly been up-to-dated What would Mr. Taylor, if he could be brought into the Star Theatre to-pight think of allusions to Herr Lexow, and 'police protection." and the war beween China and Japan? The allusto were not out of place, either, for on the deck of the City of Peking, plying between Yokohama and San Francisco everything can be discussed.

Perhaps the third act dragged a little ith the downstairs people, but the gal lery boys liked it, because it savored of rough and tumble farce-comedy. If I were Crane and Potter I shouldn't bother about altering it at all. We had plenty of our own kind of fun in the first two acts. Let the humor of the rest of the play ascend, and good luck to it.

Crane was very good indeed as Sylvanus Urban-easy, natural and mirth ful. He didn't seem to be bubbling ove with happiness, for no doubt he would much prefer to be playing Romeo or Richard III. (comedians always have missions, and are misunderstood), but he was the Crane whom we all know and like, and that fact is not to be sneezed at. Miss Ffillett Paget, a most accor plished actress, was excellent as the infignant wife, and Miss Anne O'Neill he never done such capital work. Miss O'Neill has in fact come, by careful an industrious work, into the front rank of ingenues, and she has taken the place once held by Effle Shannon, without Miss Shannon's simper and gurgle. Her scene in the first act with the doctor was high comedy, worthy of Daly's Theatre Joseph Wheelock, jr., was a success, and so were Lizzie Hudson Collier and Kate Denin Wilson. A breezy little sketch "The Pacific Mail" is a go.

BOOK NOTE.

"A Moral Busybody" is the title of Alan Dale's latest novel, which will be on the newsstands to-day. It is attractively issued by the Mascot Publishing company. The book is dedicated to Dr. Parkhurst, in no spirit of irreverence, but the author in his preface makes it the reformer any of that popular article known as "taffy." Business Is a Warfare. To the Editor:
"Chata Simila" objects to my saying "business
is a warfare." Business is but another name
for labor. He has but to look around him at
the bitter struggle for existence to see the warfare our competitive system makes—the blood shed in our strikes, the shooting of union men, the beating of non-union men, the fear of pov-erty, the pitiful reaching out of hands for a bare living in a world of plenty. Must there be more blood and suffering to suit this splitter of hairs? "C. S." shows his selfish indifference in his sneer at the little man trying to raise oranges, when with "C. To the Editor: Why are the colored people in this country so down-trodden? Why are they treated as inferior heings, as though they were not human and with-out feeling? I have travelled all through the am very sorry to say that I have always found it to be just the same treatment to the colored in the North as it is in the Jon's, and sometimes were. And I am more than sorry to say that the red are treated worse in New York and Chiin any other cities of the North, and worse than in many of the Sou

W. H. BARON, Newark, N. S. To Dye or to Die. To the Editor: Verily, it is a hard world to please. "A Brokus-Hearted Stenographer" complains in "The Even-ing World" of the 12th test, that she cannot secure a position because of tack of experience, and she cannot obtain the experience without the po-sition. My trouble is the reverse of this. I have the "experience"-twenty-five years of it-but, alast with the experience gray hairs have come, and now, when I apply for a position I am told: "A gray-haired lady adds dignity to an office, but (alas for the but) we prefer a young lady." I have conscientious scruples against dyeing, and, being a firm believer in the life beyond, I cannot accept the suicide remedy, so I must live until I have fulfilled my appointed time. To live Imust eat. To eat, I must have money. To obtain money, I must work. I have no experience in any employment other than stenography, so, by losted sequence. In order to live I must have

Is the Brigade Too Noisy? To the Editor: The Baptist Boys' Brigade may be a good thing when it is properly cared for. I live in the neighborhood of a Baptist church, situated on Greens avenue, between Stuyvesant and Low avenues and would like to say that the note his brigade makes is not only a diagrace to he church but a nulsance to the neighborhood I hope this will strike the eyes of some of its head members. If I knew their names I would write to them personally. I will take note of them next meeting and see if it is improving; to not, they will hear from me again. I do not want to make trouble, but it annoys my wife

STONESTHROW, Brooklyn.

To the Editor: This talk of abolishing man, if it really means anething, is very foolish, for all women know that, however pleasantly they may be situated in other respects, a dreadful fack is felt when there is no man in the house some element wanting, and no matter how much temi-nine companionship there may be, each womanly heart, in the secret recesses of its lone chamters, will be plaintively cooling like the fond down for it- mate; or, perhaps, in soufful burst of song, sending forth the yearning wall: "Where
